Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x109 feet; no 25-feet frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for $250 each; 10 per cent cash, remaining payments to suit purchaser.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.
In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Will Not Reduce Rates

The matter of reduction of commutation rates between San Francisco an the towns along the line of the Southern Pacific, in this county and Santa Clara will be the principal topic for discussion by the Peninsula League at its meeting to be held January 10, in this city. The railroad company does not intend to reduce rates at all unless pressure is brought upon it which they cannot resist, and it will be up to the league to find the means of bringing on such pressure. The ferry rates across the bay to Alameda towns was 25cents each way until an opposition line was put on when it immediately dropped to less than half. The following letter was received by A. S. Lillie of the Mission Promotion Association, explaining the company's policy:

"A. S. Lillie—Dear Sir: Your letter of December 14th to Mr. James Horsburgh, general passenger agent, asking for information in relation to reduced commutation rates to points on our peninsula line, coincident with the opening of the Bay Shore cutoff:

"It is not contemplated at this time to reduce the commutation rates between San Francisco and points in San Mateo and Santa Clara counties. You probably know that our commutation rates are as low as the commutation rates out of New York city and Chicago, although we do not secure near as much passenger traffic as these Eastern roads. In addition to this we have invested a large amount of money in the Bay Shore cutoff, and are giving very much faster and improved service to the peninsula territory than heretofore.

It is, of course, our desire to build up this section as rapidly as possible in order to increase our revenue, but we cannot see our way clear at the present time to make any reduction in our commutation rates. Yours truly,

"CHARLES. S. FEE,
"Passenger Traffic Manager."

Silica Sand Wanted

A letter has been received from Tom Richardson, secretary of the Oregon Development League, who states that the Columbia steel works of Portland makes the following offer through the league, to any person in California, Oregon, Washington, Idaho or Montana:

"We will take one hundred tons each month of silica sand, 98 per cent pure silica and free from iron oxides, delivered at Portland at not to exceed $6.00 per ton, and we will pay $100.00 in cash to the discoverer".

Silica sand is now being shipped to Portland and other iron and steel manufacturing centres of the Pacific Coast from Minnesota. It has been frequently reported that large quantities of pure silica have been discovered, and the community that "makes good" in this instance has a greater source of revenue than gold or copper mines, lumber mills, or factories of any kind, for when a dependable quantity of silica sand is found in quantities sufficient to supply the demand, all the iron works from the Gulf of California to Alaska, and from the Rocky Mountains west, will be customers. It may just as well be given to the public now as later that the steel trust and other combination of multi-millionaires engaged in the production of iron and steel are investigating different points on the Pacific Coast with the idea of building another Pittsburgh.

WOMEN'S WOES.

Redwood City Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflito humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing, down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. H. C. Wilder, living at 806 Arguello st., Redwood City, Cal., says: "Before I used Doan's Kidney Pills, I was annoyed to quite an extent from a dragging pain in my back which clung to me persistantly and made my life miserable. My grandmother was staying with us at the time, and as she had used Doan's Kidney Pills with satisfactory results, she advised me to give them a trial. I procured a box at P. A. Ryan's Drug Store, and they absolutely banished the pain and distress in my back and I have not had the slightest return of the trouble since. I know of others who have used Doan's Kidney Pills with equally satisfactory results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

EAGLES' ANNUAL BALL A DECIDED SUCCESS

The Eagle's ball in the Alhambra Tuesday evening was a decided success in every way. There was a large crowd present, all portions of the county being represented. The hall was tastefully decorated and the music was all that could be desired. The Eagles may well feel proud of the event. The supper at the Del Monte Hotel was the most tempting ever given in Redwood City

A novel wedding took place at the ball just as the old year was dying. County Clerk Jos. H. Nash and his deputy, A Lowe were at the dance and they were sought by a Burlingame couple desiring to get a marriage license. Nash decided to go to the court house and get them one on the condition that they be married in the hall. This was agreed upon.

The Deputy Clerk went out to procure the necessary blank while a messenger was sent for the Justice of the Peace. Then, to the strains of a wedding march played by the orchestra and in the presence of a large gathering of merry-makers, the couple took their places on the stage and Justice Hannon tied the knot.

The couple were cheered and congratulated by the spectators, and, much to their chagrin, were accompanied as they were leaving the hall by the cheering strains of "There'll Be a Hot Time in the Old Town Tonight," by the whole orchestra.

May Cook and Jos. H. Nash were the legal witnesses to the marriage. The names of the couple cannot be learned.

A Happy New Year

We wish you one and all A Happy New Year. May 1908 bring you a great deal of happiness, and the the cup of sorrow pass you by.

To some of us the year 1907 stands for sorrow and disappointment, to others it has been a year of great joy. But let us all work with the strength and good health that God has given us to achieve all that is meant for us. Let us take as our motto "That which I attempt I do" and after living up to that, add "If I can't find a way I'll make one". The person who has a definite aim in view will always accomplish the purpose.

Let us therefore buckle right down to the proposition that we are going to make this a good year.

Again we wish you a Happy and Prosperous New Year.

Forests Are Doomed

It beomes more evident each year that all the redwood forests on the coastside which are not included in the boundaries of the state park are doomed to early destruction and it cannot but be regretted that this is so. Heretofore the demand on these forests has been confined to lumber for building purposes, but now they are to be invaded to furnish railway ties.

The Bartley holdings, near La Honda, which are covered with a fine forest of virgin redwood trees were recently sold, presumably to Seymour & Le Mode, the tie contractors, as this firm has contracted to furnish the Achison, Topeka & Santa Fe railway with 100,000 redwood ties. The ties will be freighted by team from La Honda to Mayfield and from there will be shipped by rail.

A large force of men is already engaged in getting out the ties, and teams will soon be busy bringing them accross the Santa Cruz range in large quantities. Teaming over these mountains at this time of the year is beset with many dangers and Reos & Wilkins, the men who have the contract of hauling the ties, say the work will go forward as fast as the roads will permit.

The Hedlund inquest will be held as soon as the District Attorney will recover from his illness.

Leland City in Trouble

Wearying of promises and waiting for the money due them, the laborers and mechanics employed by the Leland Improvement Company have obtained a writ of attachment on the holdings of the company. They have appointed W. Tilman as their representative and he filed an attachment for the combined amounts due. The employees assert that the Leland Improvement Co. has been in arrears on its payment for many months.

The model city of Leland was situated between Palo Alto and Mayfield and was promoted by W. J. Nash, formerly vice-president of the Market Street Bank. He launched his plans with a flourish, accompanied by extensive advertising of prospects and the profits awaiting investors. Nash interested the Methodist church in his scheme to the extent that its members agreed to locate their college in this model city.

At the start Leland was a success and a great number of people invested in lots there on the strength of the advertising and attractive pamphlets published by Nash and his associates. A great deal of money was needed to lay out the site of the proposed model city, as the great portion of its territory lay on unreclaimed marsh land. Work progressed and plans for a $750,000 hotel were authorized, but a large portion of the work was being carried on credit.

Calling in Overland Tickets

The Southern Pacific is calling in from all its offices all its old forms of overland tickets, and replacing these by an entire new line. A system of cupons containing the history of the ticket is issued, so that at any time and at any place the railroad officials will be able to tell where the ticket was purchased, the fare paid and over what lines the passenger has elected to go. The office that sells the tickets keeps one coupon and every successive company also receives one. Each coupon is complete in every detail, and the new system is hailed by all railroad men with delight, as a measure that should have been introduced long ago.
